

## 2.2 LAB

Complete this lab as follows:

1. Access the back view of the computer in Office 1.
  1. Under Office 1, select **Hardware**.
  2. Above the computer, select **Back** to switch to the back view of the computer.
2. Connect the RJ45 cable to the computer and the wall plate.
  1. Under Shelf, expand **Cables**.
  2. Select the **Cat6a Cable, RJ45** cable.
  3. From the Selected Component window:
    - Drag an **RJ45 Shielded Connector** to the Ethernet port on the computer.
    - Drag the other **RJ45 Shielded Connector** to the Ethernet port on the wall outlet.
3. Test the connection to the internet.
  1. On the computer monitor, select **Click to view Windows 11** to view the running operating system.
  2. Right-click **Start** and then select **Settings**.
  3. Select **Network & internet**  
The diagram should indicate an active connection.
