Explanation

Complete the following in order:

1. View the current connection status.
 - a. From the *Floor 1 Overview*, under *Office 2*, select **Office2**.
 - b. Perform one of the following:
 - Hover over the network icon in the system tray or
 - Select **Start > Settings > Network & internet**.
 - c. Select **Questions** and answer question 1.
 - d. Minimize the Lab Questions dialog.
2. Determine how the IP address is currently assigned.
 1. From *Network & internet* settings, select **Ethernet**.
 2. Select **Questions** and answer question 2.
 3. Minimize the Lab Questions dialog.
3. Make any necessary changes to fix the connection issues.
 1. To the right of the *IP assignment*, select **Edit**.
 2. In the *Edit IP settings* dialog, use the dropdown menu and select **Automatic (DHCP)**.
 3. Select **Save** and notice Office2 has a connection.
